

NDJMS Editorial Policies

1. Privacy Policy

This privacy policy outlines how we collect, use, and protect your personal information when you visit or submit to the NDJMS. We are committed to maintaining the confidentiality of your data and adhering to applicable data protection laws. Personal information provided by authors, reviewers, and subscribers will only be used for the purposes of managing manuscript submissions, conducting peer review, and ensuring the quality of content in the journal. We do not share or sell personal information to third parties. For further details, please refer to our complete privacy statement on the journal's website at <https://ndjms.org/> or <https://www.ndu.edu.ng/ndjms/>

2. Editorial Policy

Our editorial policy ensures that content published in the NDJMS adheres to high academic standards, scientific accuracy, and relevance. Articles undergo rigorous peer review by qualified experts to ensure their validity and contribution to the field. The editorial board reserves the right to accept, reject, or request modifications to submissions based on academic and ethical considerations.

3. Peer Review Policy

All submitted manuscripts are subject to a double-blind peer review process,

where both the identities of the authors and reviewers are kept confidential. Reviewers are selected based on their expertise in the subject matter of the manuscript. Authors may be asked to revise their manuscripts based on reviewers' feedback, and the editorial board makes the final decision regarding publication.

4. Advertising Policy

We accept advertising in the NDJMS, provided it aligns with the ethical standards and content focus of the publication. Advertisements will be clearly distinguished from editorial content, and all advertisements are subject to approval by the editorial board of the NDJMS to ensure they do not conflict with the journal's objectives or standards. We do not accept advertisements that promote products or services that could harm public health.

5. Plagiarism Policy

We take plagiarism very seriously. Manuscripts submitted to the NDJMS must be original, and any content that has been previously published elsewhere must be properly cited. All submitted articles will be checked for plagiarism using advanced software tools such as Turnitin or Crossref Similarity check. If any instance of plagiarism is identified, the manuscript will be rejected, and the author(s) may be banned from submitting to the

journal in the future.

6. Withdrawal Policy

Authors who wish to withdraw their manuscript must submit a formal withdrawal request to the editorial office. The request will be reviewed, and if the manuscript is still under review or has not yet been published, it may be withdrawn. Once the manuscript has been accepted for publication or published, withdrawals may not be possible unless there are compelling reasons (e.g., ethical concerns, serious errors in the manuscript).

7. Ethics and Malpractices

We adhere to the highest ethical standards in publishing. We expect authors, reviewers, and editors to behave with integrity, honesty, and respect in all stages of manuscript submission, peer review, and publication. Any form of academic misconduct, including falsification of data, duplicate publication, or unethical authorship practices, will result in immediate rejection of the manuscript and may lead to the retraction of the article if already published.

8. Terms and Conditions

By submitting a manuscript, authors agree to the terms and conditions outlined by the journal. These include compliance with submission guidelines, confidentiality of peer review, and the ethical standards of the

journal. The journal retains the right to modify or update the terms and conditions at any time, and authors will be notified of such changes.

9. Open Access Policy

This journal follows an open access model, where all published content is freely accessible to anyone with an internet connection. Authors retain the copyright to their work but grant the journal a license to publish it. Our open access policy ensures that research is disseminated to a global audience, advancing scientific knowledge and collaboration.

10. Reviewer Form

Reviewers are required to complete a standardized reviewer form to evaluate the manuscript's quality, originality, and relevance. The form asks for a detailed assessment of the research, including its methodology, results, and conclusions. Reviewers should provide constructive feedback to assist authors in improving their work.

11. Reviewer Guidelines

Reviewers are expected to conduct a thorough, impartial, and timely review of the manuscript. They should assess the scientific quality, originality, and ethical considerations of the work. Reviewers should maintain confidentiality, avoid conflicts of interest, and provide clear, actionable

feedback. Any concerns regarding plagiarism, data integrity, or ethical issues should be reported immediately to the editorial office.

12. Copyright Policy

Upon acceptance of an article, authors transfer the copyright to the journal, which grants the journal the exclusive right to publish and distribute the work. Authors are free to use their work in subsequent publications, provided the original source is properly cited. Any use outside of fair use (e.g., for commercial purposes) requires the author's permission.

13. Archiving Policy

The journal adheres to an archiving policy to ensure the long-term accessibility of its content. All articles will be deposited in a **trusted digital repository** to preserve them and make them available to future researchers. Additionally, authors are encouraged to archive supplementary materials related to their publications.

14. Copyright Transfer Form

Upon acceptance of a manuscript, authors must sign a copyright transfer form that formally assigns the copyright to the journal. This agreement ensures the journal can publish and distribute the article in various formats, including print, digital, and online.

15. Author Guidelines

Authors are required to follow specific submission guidelines, which include formatting requirements, manuscript structure, referencing style, and ethical considerations. Manuscripts that do not meet these guidelines may be returned to authors for revision before consideration for publication.

16. Scope of The Journal

The journal publishes original research, review articles, case studies, and case reports that contribute to the understanding of medical science. We focus on advancements in medical research, treatment methodologies, and clinical practices. Submissions should be relevant to our scope and contribute meaningfully to the field.

17. Editorial Board

The editorial board is composed of experts from various medical disciplines who oversee the peer review and decision-making processes. Members of the editorial board are selected based on their expertise, reputation, and contributions to the field. Their role is to ensure the quality and integrity of the journal's content.

18. License Statement

All articles published in the journal are licensed under a Creative Commons

Attribution (CC BY) license, allowing others to share, distribute, and build upon the work, provided the original author(s) and source are properly cited. Authors retain the copyright of their work.

19. Submission Checklist

Manuscript formatted according to the journal's guidelines

Complete author details, including affiliations

A signed copyright transfer form (if applicable)

Any necessary ethical approval documentation

Disclosure of potential conflicts of interest

Supplementary files (e.g., figures, tables, data)

20. Publisher's Name and Contact Details

The journal is published by the Faculty of Clinical Sciences, Niger Delta University Amassoma, Bayelsa State. For inquiries related to submissions, editorial decisions, or advertising, please contact:
